To WHOMSOEVER IT MAY CONCERN

We have worked with TechGyan over past 9 months during which they helped us migrate to Microsoft Office 365 Productivity Platform. They provided us with the following Services:

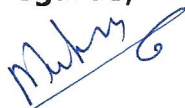

- 1) Getting 600 licenses from Microsoft of the NGO plan and 35 E3 paid plan
- 2) Domain verification on the portal
- 3) Mail migration from MS Exchange 2007 Server to Office 365
- 4) Setup Outlook on PCs
- 5) Setup Mobiles
- 6) Setup Skype for Business
- 7) Setup 13 Team sites in SharePoint
- 8) Customized SharePoint branding
- 9) Design InfoPath Forms in SharePoint
- 10) Setup One Drive for Business
- 11) Training
- 12) Ongoing Support

Office 365 has gigantically impacted our daily work as capability and potential of this Office 365 cloud is enormous.

This has impacted our routine work by contributing 50GB mailbox storage(Mail), 1TB of personal storage (one drive where data can be synced), SharePoint for Collaboration and Document Management, Yammer for organisational private tool for expressing their views and SKYPE for Business for complete communications (which also enabled us to support technically our branches by RDP).

This would be unimaginable without commitment from Microsoft and NASSCOM to non-profits like us. Special thanks to TechGyan for providing incredible and patient support which has ensured that we could able extract all features of O365 cloud to our benefit.

Regards,

Mukesh Surve
